Framework with Derivatives and Tokenization”***

TL Oakley

AQUO

- Revolutionizing Financial Instruments
- Boosting Liquidity
- Empowering Asset Tokenization and Derivatives
- Blockchains
- Smart Contracts

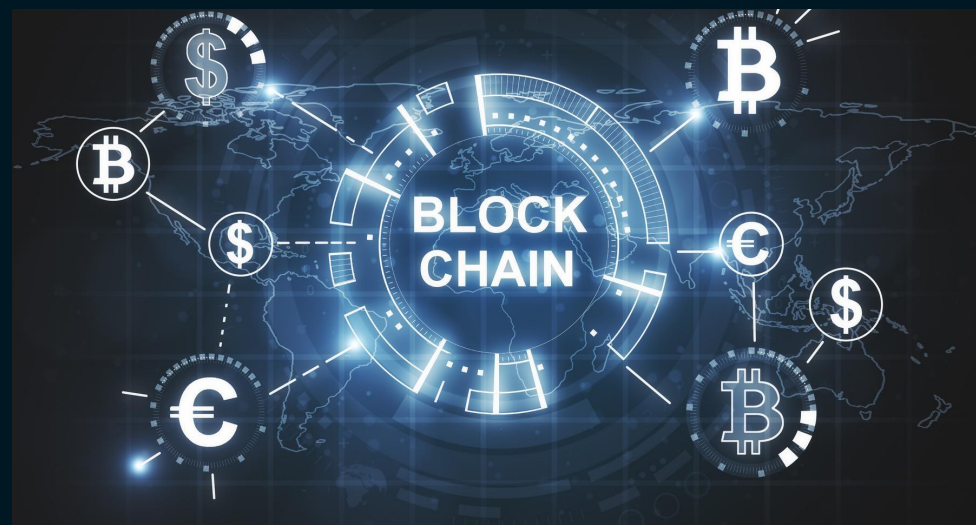

The background of the slide features a close-up, high-angle shot of gold coins and bars. The coins are scattered across the surface, some showing intricate designs. The gold bars are stacked and their surfaces are highly reflective, catching the light and creating bright highlights and deep shadows. The overall color palette is warm, dominated by the golden-yellow and brown tones of the metal, with a soft, ambient light that gives the scene a luxurious and valuable feel.

TEAM

The core team will have skills in marketing, finance, infrastructure, compliance, and investor confidence.

ROADMAP

The roadmap will start with just asset tokenization which will lead into asset pooling, and derivatives; and finally more asset classes will be considered. An ERC20 utility token is planned in month 4.

**Asset
Tokenization
(0-3 months)**

**Derivatives
(3-15
months)**

**New Asset
Classes
(15-36
months)**
